DETAILED ACTION

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

Claims 1, 2, 4 and 6-21 are rejected under 35 U.S.C. 103(a) as being unpatentable over either one of Pauty (US 4,080,885) or Codina Vilana, et al. (US 6,668,709) in view of Penaranda, et al. (US 6,186,656) and Priestman (US 2,822,198). The patents to Pauty and Codina Vilana, et al. disclose the claimed invention except for a circlip engaging a housing portion of the appliance and removably connected to the drive shaft. The patent to Penaranda, et al. teaches a circlip (16) removably connected to a drive shaft (4). The patent to Priestman teaches a circlip (10) having two legs (16,18) removably connected to a shaft (26) and engaging at least a portion (24) to restrict rotational movement of the circlip. Thus, it would have been an obvious matter of design choice to have provided the kitchen appliance of either one of Pauty or Codina Vilana, et al. with a removable circlip as suggested by Penaranda, et al. and having two legs in the manner suggested by Priestman in order to have the circlip removably connected to the drive shaft and restrict rotational movement of the circlip, if so desired.

Double Patenting

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the

unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 1, 2, 4 and 6-21 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims of U.S. Patent No. 6,860,196 in view of Penaranda, et al. (US 6,186,656) and Priestman (US 2,822,198). U.S. Patent No. 6,860,196 discloses the claimed subject matter except for a circlip engaging a housing portion of the appliance and removably connected to the drive shaft. The patent to Penaranda, et al. teaches a circlip (16) removably connected to a drive shaft (4). The patent to Priestman teaches a circlip (10) having two legs (16,18) removably connected to a shaft (26) and engaging at least a portion (24) to restrict rotational movement of the circlip. Thus, it would have been an obvious to a

person having ordinary skill in the art to have provided the kitchen appliance of U.S. Patent No. 6,860,196 with a removable circlip as suggested by Penaranda, et al. and having two legs in the manner suggested by Priestman in order to have the circlip removably connected to the drive shaft and restrict rotational movement of the circlip, if so desired.

Response to Arguments

Applicant's arguments with respect to the claims have been considered but are moot in view of the new grounds of rejection.
